

EBARA EVMS/EVM PUMP

WHY IS IT GREEN?

Ebara EVMS/EVM high efficiency pump is classified in EU standard MEI >0.7 as most efficient model. In addition, EVMS/EVM pumps can be operated by integrated built-in or conventional Variable Frequency Drive (VFD), which automatically regulates to meet actual pumping requirement, improving energy efficiency.

PRODUCT FEATURES

- Innovative Shurricane patented hydraulic design
- Easy maintenance and Flange connection option available
- Energy Saving by VFD (Variable frequency drive) and the commercial sensor can be directly mounted on EVMS/EVM to maintain physical constant operations such as pumping pressure (Smart plug solution)
- High efficiency IE3 motor starting from 0.75 kW complies with the EuP 2005/32/EC and ErP 2009/125/EC directives
- Shaft Seal option available
- Listed in JKR Green Product Directory

Application for:

- Municipal water supply
- Domestic irrigation
- General industry pressure boosting
- Rain harvesting boosting system

PRODUCT CERTIFICATION & COMPLIANCE

- ISO9001:2015
- WRAS
- MyHIJAU
