WHY IS IT GREEN?

Cooling tower with high efficiency of IE2 or IE3 motor applied enhances energy savings, with super low noise and compact design for outdoor installation and environmental space saving.

PRODUCT FEATURES

- Compact and space saving design cooling tower for easy maintenance and reduced installation time.
- High efficiency and superior performance energy savings with high efficiency (IE2 or IE3) motor applied.
- Reliable UV protector in-fill enhances better cooling performance and is long lasting.
- Super low noise design (72dBA) better for public outdoor installation environments.
- Casted aluminium alloy material designed fan maintains the cooling performance effectively and lasts longer.

PRODUCT CERTIFICATION & COMPLIANCE

- ISO 9001:2015
- Japan Cooling Tower Institution (JTI) & Cooling Technology Institution (CTI)
