

MAICOMPACT™

WHY IS IT GREEN?

- maiCompact™ does not contain dangerous substance such as pentachlorophenol, asbestos, halogens or heavy metals (Antimony, Barium, Cadmium, Chromium III and IV, Lead, Mercury, Selenium). This product has low VOC emissions, complying with GREENGUARD and GREENGUARD GOLD certifications.
- maiCompact™ is manufactured in high heat and pressure according to European Standard EN438, ensuring no fungi growth possibility on surface of materials.
- The product is also anti-microbial, as it prevents the growth of mould by its high density structure as a result of high pressure and high heat treatment used to create the finished product.
- maiCompact™ is also made using sustainable pulp from FSC managed forestry.

PRODUCT FEATURES

- maiCompact™ is an EN438 compliant decorative laminate, which can be used for both horizontal and vertical applications. The products are used as table tops, toilet cubicles and other applications in places with high humidity and warm temperature.
- It is sent to a third party laboratory test in Germany for compliance to safe contact with foodstuffs. Manufactured in Penang, Malaysia, it is suitable for the most sensitive environments such as hospitals and nursing homes.
- In addition, it is also termite resistant and water resistant, which makes it suitable for use in wet areas.
